

WILLOWBROOK

Water and Sanitation District

April 20, 2023

Residents of Harriman Park and Trappers Glen Subdivisions

RE: Construction Notice
Water Main Replacement

A water main replacement project by the Willowbrook Water & Sanitation District (District) is scheduled to be performed this spring and summer in the Harriman Park / Trappers Glen subdivisions.

Refer to the attached Construction Notice Exhibit. The project is split into two phases: North and South. The construction schedule is anticipated to be as follows:

North: April 27, 2023 to Mid-June

South: Mid-June to end of July

Hours of construction will be Monday through Friday from 7:00 am to 5:00 pm. In preparation of the work, we ask that you please remove vehicles, dumpsters, boats, RVs, etc. from the city streets if the work area fronts your property. During construction, there will be road closures and construction noise.

There will be water shut-downs throughout the project. You will be notified 48-hours in advance of any water shut-downs that directly affect your residence.

For general questions or concerns, contact the District Engineer:

Purrington Civil, LLC
Steve Homer, P.E.
303-913-6514

For specific construction related questions, contact the Contractor:

Iron Woman Construction
Josh Hill, Project Manager
720-795-2508

Projects of this nature bring a level of disruption to surrounding residences. The District, District Engineer and Contractor will work diligently with the residences to ensure safety, access, water service and cleanliness. Your cooperation is greatly appreciated.

Kind Regards,

Willowbrook Water and Sanitation District
